- Sitelink, Callout and Structured Snippet Extensions were included to campaigns
- Sitelink Extensions had more impressions than Callouts
- Extensions which had description about facilities being offered at gaming centre had better CTR than others.

# Activities Performed

---

- Triggered the Search Only campaigns in first two days, later on triggered Display Only campaigns
- The first three days of the campaign had low impressions and clicks, due to low ad rank and max CPC – Increased the Max CPC based upon each campaign and budget
- At the end of first week, depending upon Google's keyword suggestion– we included the suggested keywords as phrase and exact matches, which resulted in increased impressions per day
- In second week, we included sitelink and call-out extensions for each ad-group which resulted in improved Quality Score for the ads and increase in the number of impressions in the search and display campaigns
- In third week, we included Structured Snippet Extension – displaying the service catalogue of the company to improve CTR from Youth audience ad-groups
- Monitored the campaigns and incorporated negative keywords regularly to avoid showing ads for irrelevant keyword searches.

Hi,

Greetings!! from Zero Reality VR. Thank you for doing Google Adwords and facebook page Advertisement, we received positive response on facebook page almost 200 likes.

Good efforts convey my thanks to all of your team members.

Thanks & Regards  
Zero Reality VR

# Conclusion

- Facebook is the best medium to reach people for this type of company
- Video Ads and Carousel Ads are most effective than image ads
- As, company's website was under development, the effectiveness of the ads are listed from Facebook Page Insights.

# Learnings and Suggestions

- **Devices Report –**

- Ads more effective on mobiles than other devices
- Could have explored **Mobile Bid Adjustments** and observed the results

- **Day & Hour Report –**

- Ads effectively displayed on Wednesday, Friday and Saturday
- CTR was high on Tuesdays and Sundays
- **Ad Scheduling** feature could have helped us to spend our budget wisely and getting more pageviews, clicks and impressions.

# Learnings and Suggestions

- Being an academic project, the budget was equally allocated throughout the week, but insights suggests that higher budget allocation on specific days or weekends may have led to more reach and views
- Advertisements should be scheduled during day time after 6:00 am. and more budget should be allocated during evening hours
- The next objective for the company should be on making conversions based on link clicks or button clicks
